Hats sold below cost at Eucher Gies' furniture store. 120 fm

The girls at the Normal school are developing their muscle by trundling a wheelbarrow.

No news from Phenix today, the telegraphic facilities are not good between the capitol and the outside world.

The Chinaman pulled for making a gun play a couple of days ago is figuring on having a jury trial. He is out on bonds.

For the balance of the season, commencing tonight, Thursday, ladies will be charged for skates. Free list is suspended.

John Noble returned on today's coach from an extended trip to the Arkansas hot springs. His health is much improved.

King Kalakaua caught his death cold at Santa Barbara. San Diego now has a lever to use against her rival health resort.

Mr. J. M. Castenada of the Virginia hotel, Benson, is recuperating in Tombstone from an attack of overwork.

Mr. J. A. Rockfellow occupies his evenings in Mr. Vicker's office in giving private lessons to a few young men who are anxious to brush up.

Five million acres of land in Texas still remain subject to homestead entry; and yet we are told that all of the available land in the United States has been taken up.

The distinguished financier, Jesse Seligman, will discuss free coinage of silver in an article which he has written for the February number of the North American Review.

The change in the weather has made a marked difference in the physical condition of those have been "under the weather" for the past month. The past three days have been simply grand.

Hugo Richards has purchased the interest of the late General Crook in certain stock and ranches in Yavapai and Maricopa counties, Arizona. The widow of the General will get about \$11,000 for the property.

The Phenix Republican says that John Mahan, of Tempe, and Henry Wharton, of Phenix, are negotiating for an ice plant and expect to erect a mill in Phenix with a capacity of ten tons of ice per day. The machinery being negotiated for is in Tombstone and part of the purchase money has been paid.

Cochise county is watered by the San Simon creek on the east, which stream rises in New Mexico, and runs Northwesterly through Cochise and into Graham county, and empties into the Gila river at Solomonville. The Sulphur Spring valley, running through the central portion of the county, heads in Graham county, the waters flowing southerly into Mexico and forming the head waters of the Sonora river, which empties into the Gulf of California.

Their Legality.

The following letter from the Attorney General to the Territorial Auditor gives his opinion on the legality of warrants issued after January 1, 1891. PHENIX, Arizona, Dec. 22, 1890. Hon. Thomas Hughes, Territorial Auditor: Sir—You ask my opinion whether you ought to proceed to audit and allow valid claims against the Territory and allow warrants in payment thereof after January 1st, 1891 in cases where there shall not be funds in the Territorial Treasury to pay such warrants upon presentation and I have the honor to reply as follows, to-wit: Yes I advise you to proceed in the same manner as you have heretofore done and draw such warrants as are authorized by the statutes of the Territory making appropriations of the public moneys.

Very Respectfully

CLARK CHURCHILL,
Attorney General.

Lands in Cultivation.

In the San Simon valley there are not to exceed 300 acres under cultivation.

In the Sulphur Spring valley and adjacent foot hills there about 2,000 acres under cultivation.

In the San Pedro valley and adjacent table land there are under cultivation about 6,000 acres.

LAND SUSCEPTIBLE OF CULTIVATION.

There are in San Simon valley 60,000 acres.

Sulphur Spring valley 200,000 acres.

And in the San Pedro valley 50,000 acres.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time, and the better it is known the more popular it becomes.

Live Stock Sanitary Commission.

The annual meeting of the Territorial Live Stock Commission of Arizona convened at Phenix on Saturday last, there being present Isaac N. Town, chairman, of Pima county; William C. Barnes, member from Apache county; J. V. Vickers, member from Cochise county and Dr. A. J. Chandler, secretary and veterinary surgeon. At Saturday's and Monday's meeting the detail and general business of the Commission were considered, and it was decided to ask to have the law amended so as to better provide for economical and effective protection of animals. The reduction of salary of the secretary and veterinary surgeon was carefully considered. At the final meeting held at 9 o'clock Tuesday morning the salary of the secretary and veterinary surgeon was reduced to \$1,200 per annum. Republican.

Mrs. John Oliver left by the Oso Negro stage to-day to join her husband at La Noria ranch.

Mr. Sydow received a wagon load of fine looking potatoes from the Huachuca to day.

Fruit of all kinds, with the exception of tropical fruit, is only grown to perfection in a climate where the weather in the winter months is cold enough to drive the sap into the roots and hold it there for a rest. This is why Cochise county fruit is superior to that raised in other sections of Arizona.

The prosperity of a town is gauged, not by the wealth of its inhabitants, but by the unanimity with which they pull together when any important undertaking is to be accomplished. A man with \$5,000 at his command and love for his town at heart can do more for the building up and improving of it than the millionaire who locks up his capital and snaps his fingers at home progress.—Las Vegas Optic.

Blow the Territory in for all her credit is worth and put the money to some good use. False economy has done more to impair our young Territory than any other one system. Chop off useless offices and place their salaries to the credit of the Native Sons of Arizona.

Look South.

The city of Galveston will celebrate in a fitting style the appropriation recently made for a deep harbor at that port. It will begin on the 5th of February and last till the tenth. The name of the affair will be the Mardi Gras and inter-state trade display. Special floats in the Mardi Gras will represent the ten western states which find deep water at the gulf, their nearest port. Colorado, Utah, Arizona and New Mexico floats have been designed by a western artist familiar with the country. During the festival a congress of representative business men from all sections of the west will be held. The purpose of this congress is to ask for such legislation by Congress as will be beneficial to the west. The new proposition of a deep harbor means much for the southwest and Arizona should not be unrepresented on such an important occasion. We have looked too long to the east and north and west. It might be profitable to turn our eyes to the south of us.

A Physician's Opinion.

Dr. A. A. SPAULDING, of Grand Rapids, Mich., says: "I prescribe Hubbard's Rheumatic Syrup in my practice and unhesitatingly recommend it. It operates upon the liver, kidneys and bowels, destroying the poison in the blood and tissues. It is a grand tonic and appetizer, and for a diseased stomach or dyspepsia has no equal." For by J. FRANK RYAN, Chief Police.

Beef by the quarter, 4 cents per pound at TRIBOLET'S.

Is it Normal?

The pupils at the Normal school seem to be under concern of mind in regard to the proper method of planting and irrigating trees and shrubs in the school grounds. The board of directors have instructed the gardener to go and learn wisdom of the gardener at the Capitol grounds; but the Normal gardener thinks the Capitol man is an abnormal gardener because he wants to irrigate at the roots instead of by flooding the surface of the ground. One gardener wants trees planted en masse, the other says it's bad taste. The professors should separate these Kilkenny cats and throw the light of their own wisdom on the irrigating problem. At the entrance to the grounds are to be planted four banana trees; scented myrtle will be planted for hedges and native grasses and cacti are to find a place.

How to get rid of colds.

Who hasn't suffered from headache? We all had it when we ran races at school—we have it when we overwork ourselves at any age. It comes on, as everybody knows, suddenly. By using one of Alcock's Porous Plasters it goes away nearly as quickly. F. Koessner of No. 556 West 58th Street, New York, says: "It is with pleasure I write these lines in testimony to the powers of Alcock's Porous Plasters. I have been some what annoyed with serious pains in my sides, for which several medicines have been prescribed, but to no avail, and through the advice of friend I tried two Alcock's Porous Plasters, and the relief they have given me is both satisfactory and astonishing. To any one annoyed with pains these plasters are a certain remedy."

Here it is, and it fills the bill much better than anything we could say: "It gives me the greatest pleasure to write you in regard to Chamberlain's Cough Remedy. During the past winter I have sold more of it than any other kind, and have yet to find any one, but what was benefited by taking it. I have never had any medicine in my store that gave such universal satisfaction." J. M. Roney, Druggist, Genda Springs, Kansas. 50 cent bottles for sale by H. J. Peto, Druggist.
